Ataturk Maritime Book Monument Sculpture

This monumental sculpture, symbolizing Ataturk's importance given to maritime and the deep-rooted connection of the Turkish nation with the sea, stands out with its unique open book form design. Creating a strong visual impact with its turquoise bronze patina coating, the work features Ataturk relief, anchor and helm motifs together. On the left page, Ataturk's historic quotes about maritime are presented in both Turkish and English.

Sculpture Features

This monumental sculpture produced from fiberglass material is painted with bronze patina technique on a turquoise base. The open book form design consists of two pages, with the left page containing text and maritime motifs, and the right page featuring the Ataturk relief. With its structure resistant to outdoor conditions, it maintains its vibrancy and durability for many years. Permanent installation is ensured by mounting on a concrete base.

Areas of Use

It is an ideal monumental sculpture for port entrances, marina areas, maritime institutions and coastal municipalities. A powerful choice for Ataturk monuments, square arrangements and public space projects, this work reflects maritime culture and national values together. It is a unique and impressive choice for municipalities and public institutions that want to integrate their corporate identity with a maritime theme.
