Lion Mask

The Lion Mask is a striking and majestic work of art that immortalizes the lion, one of nature's most powerful and noble creatures, with every strand of its flowing mane skillfully captured. Crafted with meticulous relief technique, this wall sculpture powerfully conveys the lion's wild character, dominance, and natural poise. Featuring deep, piercing eyes and richly detailed wavy mane, the Lion Mask brings the grandeur of untamed nature to any space. Our photos were taken from the mask's clay form.

Mask Features

The Lion Mask is carefully crafted from high-quality fiberglass, gaining a warm, natural texture in terracotta tones. Fine anatomical details such as the mane's voluminous waves, muscle lines around the nose, eyelids, and ear shape are meticulously sculpted, capturing the lion's distinctive facial expression with original craftsmanship. Made in 100x70x30 cm dimensions, this wall mask features a flat, sturdy back design that allows for easy wall mounting. Thanks to its durable fiberglass construction, it can be displayed indoors and in suitable outdoor conditions for a long time without losing its shape or color, adding the striking and noble texture of wild nature to any space.
