Relief Wall Sculpture

Commissioned by Elazig Municipality, this special relief wall sculpture series presents the city's deep-rooted culture and historical fabric through an artistic language. As part of a set of 7 reliefs, this work transforms Elazig's traditions, way of life, and regionally distinctive values into a permanent work of art. The composition that integrates seamlessly with the wall invites the viewer into the soul of the city. This work gives the most beautiful answer to the question of what is relief.

Artistic Structure of the Work

Crafted using the relief technique, this sculpture creates depth and volume on the surface, bringing a three-dimensional effect to two-dimensional spaces. The refined craftsmanship from the artist's hand is evident in every detail of the figures and motifs. Cultural elements unique to Elazig are masterfully woven into the composition, transforming the region's history and collective memory into a visual narrative. Thanks to its durable material structure, it retains its value for many years in both interior and exterior spaces.

Use and Display

Creating a powerful identity element for municipal buildings, cultural centers, museums, and public spaces, this work adds prestige and meaning to institutional environments. A meaningful choice for institutions wishing to keep the city's cultural heritage alive, the relief becomes a permanent reference point introducing Elazig to visitors. The 3 pieces published on our site are distinguished examples of this unique 7-relief series.
