Double-Headed Eagle Sculpture

The double-headed eagle is one of the most deep-rooted symbols representing power, justice, and sovereignty throughout history. Its two heads, looking east and west simultaneously, symbolize universal dominance and balanced governance. As one of the most precious motifs of Seljuk art, this sculpture has left deep traces in the cultural heritage of Anatolia.

Sculpture Specifications

Standing 240 cm tall, this magnificent sculpture is crafted from fiberglass and exhibits a solid stance with its 600 kg weight. With a width of 450 cm and a depth of 280 cm, the artwork offers an impressive visual feast in large areas. Thanks to its durable structure, it can be used for many years in both indoor and outdoor settings.

Usage Areas

Preferred especially by municipal squares, cultural centers, museums, and prestigious institutions, the double-headed eagle statue adds a historical atmosphere to any space. Since the mold is already available, the production process is rapid. It is an ideal decorative sculpture option for institutions wishing to preserve Seljuk and Ottoman heritage.
