Funny Cow Statue

The funny cow statue is a cute, cartoon-style animal sculpture with a seated pose, surprised eyes, a pink nose and small horns that make people smile at first glance. With its chubby body, short legs and hooves stretched out on the ground, this fiberglass cow statue has a cheerful character and creates a fun focal point at playgrounds, gardens, cafes, farms and business entrances. From the wide-eyed expression to the shape of the ears, from the curve of the horns to the nostrils, every detail of this funny cow sculpture is carefully crafted to bring a smile to everyone who walks by.

Funny Cow Statue Features

The funny cow statue is first shaped as a clay model, then a mold is made and the sculpture is produced from durable fiberglass. The body, legs, hooves, face, ears and horns are modeled one by one. After production, the statue is hand painted. Warm earth tones are used on the body, white on the face and a bright pink on the nose. The glossy finish gives this fiberglass cow statue a playful, toy-like look. Thanks to its fiberglass structure, it is lightweight, strong and easy to transport. It can stand outdoors for many years without losing its shape or color, even in rain, sun and temperature changes. In this project, two cow statues were produced and delivered for a childrens playground. The model can also be made in different sizes and colors on request. For custom orders, the size, color and details can be changed. Cow statue prices vary depending on size, color and production details. Contact us for current prices and orders.

Funny Cow Statue Uses

The funny cow statue is a popular choice for childrens playgrounds, play areas, city parks,

gardens, cafes, restaurants, farms, dairy shops, shopping malls and business entrances. Its rounded shape and cheerful design make it both a decoration and a perfect photo spot. Its large body, easy for children to spot, gives any place a fun and lively identity. Besides the cow statue, our workshop also makes other animal figures, cartoon sculptures and decorative statues.
