# Military Uniformed Bust

The Military Uniformed Bust is a dignified and striking work of art that immortalizes the founder of the Republic of Turkey, Mustafa Kemal Atatürk, in his military identity. Meticulously crafted with kalpak, medal, and uniform details, this bust powerfully reflects his commanding presence, discipline, and leadership during the War of Independence. With its determined gaze and upright posture, this Atatürk bust adds historical value to any space it occupies.

## Bust Features

The Military Uniformed Bust is produced from high-quality fiberglass or polyester material, finished with a bronze patina coating for a realistic texture. Uniform details such as the kalpak, collar stars, chest medals, and sword strap are carefully modeled, while the characteristic facial features and posture are rendered with authentic craftsmanship. Available in different size options, the bust is suitable for both indoor and outdoor use thanks to its sturdy base structure. Its durable material allows it to be displayed for many years without losing form or color, even in outdoor conditions.
